

AMENDMENTS TO THE SPECIFICATION

IN THE SPECIFICATION:

Page 1

Immediately below the title of the invention, please insert the following section:

CROSS REFERENCE TO RELATED APPLICATION

This Nonprovisional application claims priority under 35 U.S.C. § 119(a) on Patent Application No. 2002/313537 filed in Japan on October 28, 2002, the entire contents of which are hereby incorporated by reference.

Immediately above "FIELD OF THE INVENTION", please insert the following heading:

BACKGROUND OF THE INVENTION

In the 8<sup>th</sup> line from the bottom, delete the heading "BACKGROUND OF THE INVENTION".

Page 2

Amend the paragraph commencing at line 13 as follows:

In light of this problem, there has been proposed an ultrasonic pen input system that allows for pen entry without providing the transparent tablet on the display panel. In this system, an ultrasonic transmitter installed in the input pen transmits ultrasound, and receivers installed in the display panel receive the incoming ultrasound. The location of pen entry is then determined by calculating the position of the input pen relative to the display panel based on the received signals. Such an ultrasound pen input system is disclosed, for example, in US patent No. 4,814,552 (~~Date of Patent: March 21, 1989~~) of Stefik et al.

Page 9

Amend the paragraph commencing at line 14 to insert a space between "circuits" and "107" in the second line as follows:

In the pen input unit 101, the A/D converter circuits\_107 and 108 convert, from analog data into digital data, the waveforms of the ultrasonic signals received through the ultrasonic receivers 102 and 103 and the amplifier circuits 105 and 106.
